

Anyware Solutions has been named a CES 2018 Innovation Awards Honoree for the Anyware Smart Adaptor™

The award-winning product was successfully funded on Indiegogo in July 2016, and Anyware Solutions is currently participating in the IKEA Bootcamp in Sweden as the only IoT startup, selected from 1,300 startups worldwide.

Copenhagen, October 26, 2017 – Danish tech startup, Anyware Solutions, today announced that the unique patent-pending Smart Home system in ONE connected device for the lamp socket, the Anyware Smart Adaptor™, has been awarded a prestigious CES 2018 Innovation Award.

The Anyware Smart Adaptor™ is as easy to install as fitting a light bulb. It is designed to provide seamless Smart Home for everyone by offering digital services in the Anyware App™.

The Anyware Smart Adaptor™ is controlled via smartphone and equipped with a number of built-in sensors (sound, temperature, humidity and ambient light), WiFi and Bluetooth (BLE) connectivity. It controls and dims the light and has an advanced Home/Away function that automatically enable services such as intrusion detection and preventive burglar control, when you are not at home. It also constantly monitors your indoor climate or vacation home.

The prestigious CES Innovation Awards are sponsored by the Consumer Technology Association (CTA)™, the owner and producer of CES 2018, the largest Consumer Electronics Show in the world. The Anyware Smart Adaptor™ will be displayed at CES 2018, which runs January 9-12, 2018, in Las Vegas, Nevada.

Products chosen as CES Innovation Honorees reflect innovative design and engineering in some of the most cutting-edge tech products and services coming to market.

CES 2018 Innovation Honoree products are also featured on CES.tech/Innovation.
